

QuikRuler III can be used with Roll-Up III and Super L VI digitizers

## Overview

The affordable measuring module for architects, construction estimators, engineers and surveyors!

QuikRuler III is an exciting tool that quickly and accurately automates blueprint takeoff and drawing measurement processes. QuikRuler III is perfect for construction estimators, architects, engineers, surveyors, and other professionals who require fast, accurate measurements from drawings.

QuikRuler III can be used with either a GTCO CalComp Roll-Up III™ or Super L VI™ digitizer and it comes with everything you need to get started—measuring menu, LCD display with a sophisticated, yet easy-to-use built-in measuring program and integrated USB connector for easy plug-n-play use.

QuikRuler III is proven to deliver faster, more accurate takeoffs and measurements, boosting performance up to 3 times! More bids means more jobs...greater accuracy means larger pr

QuikRuler III includes all functions necessary to measure lengths, as well as irregular areas in any scale or unit of measurement. For example, to measure an area, simply select AREA from the menu then trace or touch points along the perimeter of the area with the pointing device. The resulting measurement will appear (in English or metric units) on the LCD display. QuikRuler III also performs standard calculator functions and can count items on blueprints or drawings with ease.

Both the Roll-Up III and Super L VI digitizers that are available with QuikRuler III are compatible with most estimating software, so your investment is protected when you upgrade to the higher performance of a computerized estimating system.

## Features

### Versatile

Works with Roll-Up III or Super L VI Series Digitizers with integrated QuikRuler III support  
No computer required!

### Easy to Use

No computer experience required  
Integrated USB to send data to your PC (no drivers required)  
Works alone or with a PC  
Input numerical data into any spreadsheet application, including Lotus 1-2-3® and Microsoft Excel®  
Single cable connects the QuikRuler III to the Super L VI or Roll-Up III making set-up very easy

### Standard Functions

Measuring functions include area, length segment, length continuous, count, perimeter, units, scale, auto-scale and count-scale  
Calculator functions include add, subtract, divide, and multiply  
Units of measure include inches, feet, yards, miles, millimeters, centimeters, meters, kilometers, no units  
Works at any scale

### Durable and Dependable

Easy-to-read screen  
Made of durable, tough materials  
Backed by a two-year limited U.S. warranty and free technical support

## Specifications

Platform Support	PC: Microsoft Windows 98, 98SE, ME, 2000, XP, Vista (32 bit only), and 7
Hardware Interface	Integrated USB, QuikRuler III Legacy available for RS-232
Power Requirements	9 Volts at 500mA/Powered by a Roll-Up III or Super L VI digitizer
Operating Temperature	50 to 104°F/10 to 40°C
Storage Temperature	-22 to +158°F/-30 to +70°C
Weight	175 g/6 oz
Size (L x W x H)	5.6 x 2.6 x 2 in/142 x 66 x 51 mm
Humidity Range	0 to 90%, noncondensing
Warranty	Two-year limited U.S. warranty, free technical support

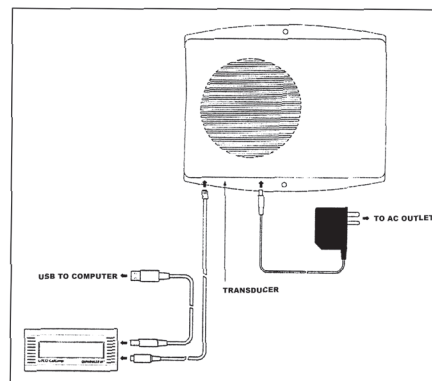

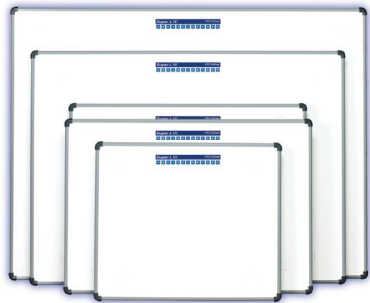

### Included With Your Purchase

LCD display featuring  
16 characters x 2 lines  
Tablet interface cable for  
Roll-Up III and Super L VI  
Measuring Menu  
User's manual  
Power supply

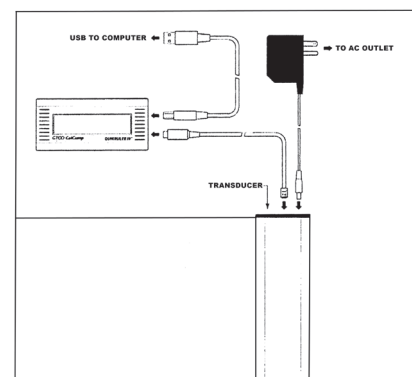

### Other Options

Choice of language for display and  
menu: English, French, German  
Legacy RS-232 interface option for  
Roll-Up I, II and Super L I, II, III, IV

## Easy Connectivity

To a Super L VI Digitizer

To a Roll-Up III Digitizer
